

Creatures

Category One - creatures that aid my characters

For instance, horses help carry the hero from point A to point B. A dog may help track down another character.

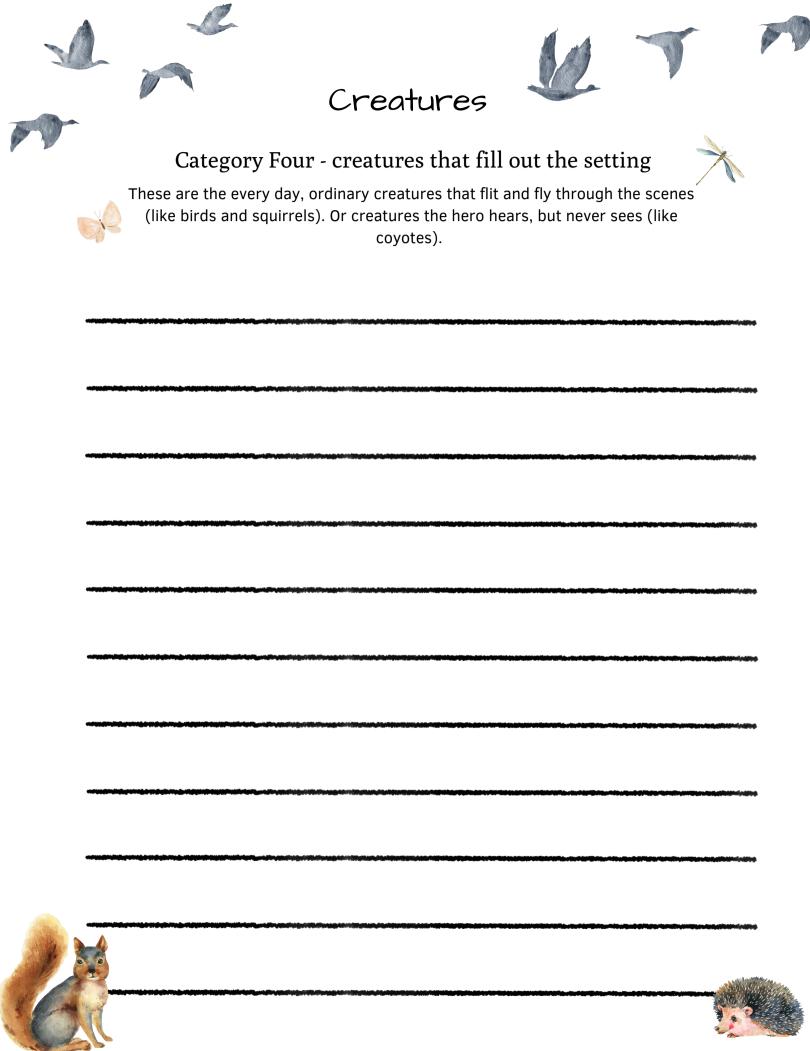

Category Two - creatures that are obstacles to my characters

For instance, the hero may have to avoid a bear in a cave or fight past a cougar to get to his goal. This could also be the pesky incests that bite, sting, or fly in the hero's face for no reason.

Creatures

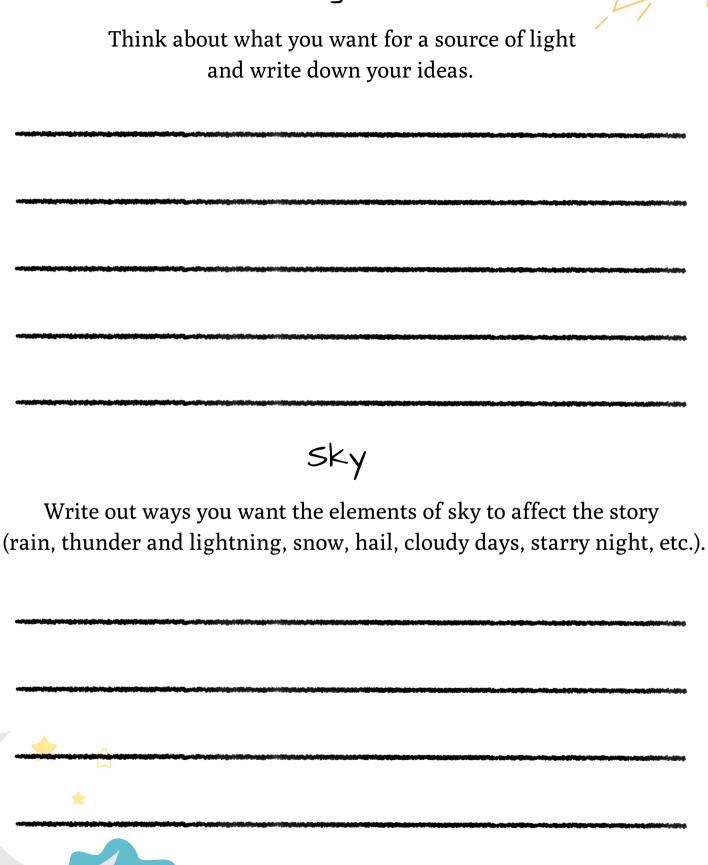

| | These are the ones we would consider "pets." They are usually given personalities and have more prominence in the book. |

This includes those that produce food, like goats for milk and chickens for eggs. As well as animals that are food, like fish, rabbits, shrimp, and deer.

Light

Write a scene and tell how the sky looks at sunrise through your character's eyes.
