

HIYA!

I wanted to clarify a few things before you surge into this list of names!

The following list of names of God comes from my personal study over the last 2+ years. The order of the names comes in the order I studied them. You'll notice that most of the names have the Hebrew (one Aramaic and a few Greek) variants under them. That is primarily because of how much I love Hebrew! Also, because it might inspire what you call God in your novel!

Some of these names may be more appropriately considered titles. However, each one reveals the awesome, unchangeable character of our God.

Each name/title of God has a corresponding verse from the Bible, either where the name originated or one of the many references where that name/title is found. I encourage you to have your Bible on hand and read the references for yourself!

A few of the names are not found in the original languages and may not appear in every translation; for instance, *Sovereign*. However, I decided to include them because the attributes are described in original translations.

I hope this grows your faith and knowledge of our God and Savior, in addition to helping you decide what name/title to use in your story as you seek to reflect God to the world through your book!

*Hidden with Christ in God,
Alyson Jensen*
